Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136 (a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

The following is a quotation of the second paragraph of 35

U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 24-29, 31 and 33-39 are rejected under 35 U.S.C.

§ 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which Applicant regards as the invention. Since an intended photoactivation treatment is not an apparatus limitation, the recitation that "said second container is integrally connected to said first container during photoactivation treatment" (claim 24, lines 8-10) is vague, and indefinite as to the structural limitation intended. Also, the recitation that the "adsorbent material" comprises a "flow through device" (claim 28, lines 2 and 4) appears to be misdescriptive, since it is not clear that a material can include a device. If Applicant is attempting to recite that the adsorbent material is contained or housed in a flow through device, then claim 28 should be so amended. Claims 25-27, 29, 31 and 33-39 depend from indefinite claim 24, and are therefore themselves indefinite.

Claims 24-29, 31 and 33-39 would be allowed if rewritten or amended to overcome the above rejection under 35 U.S.C. § 112, because it is agreed that the references of record do teach or

fairly suggest a fluid processing set having a first container which is made of a material that is substantially translucent to light in the photoactivating wavelength range, and an adsorbent material capable of removing excess photochemical agent and/or photoactivation by-products from a biological fluid.

Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
